

Scientific Observation

Thick-billed Euphonia

Watch the short video clip and answer the following questions:

1. What sounds did you notice at the beginning of the video?

2. Describe the habitat you observe in the background.

3. Describe the bird's behavior when it first appears in the video. What does it have in its beak?

4. What did the bird do with material it was carrying? Describe this bird's nest.

5. What else did you observe in this video? Did it spark any questions? Write something you would like to learn about this bird.

Think  about it!

How can you help nesting birds in your area? Check all that apply.

PUT OUT BIRD FEEDERS

PLANT TREES

KEEP CATS INDOORS

OTHER (write your answer below)
